EXTRA ACADEMIC ACTIVITY (EAA) The National Sports Organization (NSO) creates an atmosphere of sports consciousness and healthy physical build-up among the educated youth. It is imperative for a student enrolled under N.S.O. to receive relevant training and represent the institute in sporting events. Students are admitted into the N.S.O by virtue of their aptitude and abilities in various events. The National Cadet Corps (NCC) is a Tri-Services voluntary organisation comprising the Army, Navy and Air Force, engaged in grooming the youth ??? ??? The Leaders of Tomorrow??? ??? into disciplined and patriotic citizens. IIT Kharagpur has 1 Bengal EME Coy., Army Wing and Tech Air Force Wing. Presently, NCC has approximately 13 lakhs cadets under its fold in India. The cadets are given basic military training in small arms and parades. The cadets have no liability for active military service once they complete their course but are given preference over normal candidates during selections based on the achievements in the corps. The aims of N.C.C. are as per below: # To Develop Character, Comradeship, Discipline, Leadership, Secular Outlook, Spirit of Adventure, and Ideals of Selfless Service amongst the Youth of the Country. # To Create a Human Resource of Organized, Trained and Motivated Youth, To Provide Leadership in all Walks of life and be Always Available for the Service of the Nation. # To Provide a Suitable Environment to Motivate the Youth to Take Up a Career in the Armed Forces The National Service Scheme (NSS) aims at creating social awareness among students and providing a sense of fulfillment through service to the needy. NSS, IIT Kharagpur has 15 units working in 15 underdeveloped regions within 5 K.M. radius of the campus. Besides development of character qualities like leadership, ability to work in a team, communication skill etc., the work gives an opportunity to interact with community leaders and also to ideate, innovate and implement.

9. Scholarships

The institute provides various Scholarships funded by Institute and Alumni and Assistantships to the students based on their performance and family income.

If any student wants to apply for any outside scholarship (NSP, state Scholarship etc) and require verification of Income document it must be submitted online through erp for verification.

10. Major curriculum reforms for UG students starting from the academic year 2024-25

In line with the spirit of the National Educational Policy (NEP 2020), IIT Kharagpur is introducing several path-breaking reforms in its UG programmes, starting from the academic year 2024-25.

1. From the academic year 2024-25, all UG students will initially be admitted only into 4-year B.Tech. and B.S programmes. However, students will get an opportunity to opt for 5-year dual degree programmes after completing the 2nd or 3rd year of their study. Depending upon their interest and suitability, the students can either choose a 5-year dual degree programme in his/her parent department, or alternatively, opt for an Interdisciplinary Dual Degree Programme (IDDP) offered by several schools and centres of the Institute. This will also create interesting range of possibilities – for instance, a student with B.S. (Hons.) in Economics can do an M.Tech. in Artificial Intelligence and Machine Learning, or a B.Tech. (Hons.) in Civil Engineering can graduate with a M.Tech. in Financial Engineering, etc. These changes will help students to make an informed choice about their preferred Dual Degree specialization after having spent a few semesters at IIT Kharagpur, instead of being forced to make an uninformed choice at the time of (or even before) joining the institute.

2. There is no provision of branch change option at any point of time.

3. The UG students have the option of earn simultaneously a “Double Major” along with the B.Tech. (Hons.) or B.S (Hons.) degree in their respective admitting departments. The “Double Major” programme will be offered by several departments. Depending upon their interest and aptitude, the students can register for “Double Major” after 1st year. Depending upon availability and eligibility, students can opt for Double Major in stream that is different from the parent department. For example, a

student pursuing B.Tech. (Hons.) in Mechanical Engineering may opt for a “Double Major” in “Economics”, or a student pursuing B.S (Hons.) in Physics may opt for a “Double Major” in “Electronics and Electrical Communications Engineering” or “Artificial Intelligence and Machine Learning”.

4. IIT Kharagpur has introduced the Semester Away Program (SAP) for undergraduate students starting from the academic year 2024–25. Under SAP, a UG student can spend one semester either in another reputed national or international institute or industry or research laboratory, and earn full credits equivalent to the semester credits. If required, the UG students can also combine their mandatory summer internship of 8-weeks along with the semester long SAP programme, giving them an opportunity to spend almost 8 months in another reputed organization/industry anywhere in the world.

5. In addition, the institute also offers students the possibility of earning a “Minor” or a “Micro- Specialization” in a number of disciplines of their interest. Considering the rapid developments in “Artificial Intelligence and Machine Learning (AI/ML)” and its huge potential for the nation, studying at least one AI/ML elective will be made mandatory for all the students along with several other electives being offered in areas such as Linguistics, Happiness and Well-Being, Indian Knowledge Systems, Performing Arts etc. The institute also encourages the UG students to attend national and international conferences of repute and make presentations of the research work that they do at IIT Kharagpur by supporting them financially and promoting the creativity of the students through establishment of several Innovation Labs, Do-It-Yourself centres, Tinkering Labs, Tech Clubs etc.
